Features:

The DLB 5-15 is a versatile, very efficient, and stable 5 GHz CPE. This product is equipped with an extreme output power (up to 29 dBm) 802.11n MIMO radio wrapped securely inside a robust, well designed and a small form factor enclosure. The robust hardware is coupled with a 15 dBi directional panel antenna; ideal for short to medium range applications.

Smart dynamic polling based protocol (iPoll 2) ensures reliable communication even in congested areas with 64 client devices connected to a base-station.

Equipped with LigoWave's dual firmware image feature, remote software upgrades are assured even if a power failure interrupts the process. The device will restart using the prior firmware in the event of an upgrade failure.

The enclosure is made of polycarbonate plastic with UV inhibitors to provide years of outdoor exposure in direct sunlight without cracking. Tested to meet vibration, temperature, drop, salt, fog, and electrical surge standards to ensure a high level of reliability and backed by a two-year warranty. It is equipped with a grounding lug and a grounded 24-volt PoE to allow a professional installation, resistant to electrical surges.

Integrated surge protection

3 kV line to ground and 1 kV line-to-line protection allows operating in a harsh weather conditions and unstable electrical installations.

LigoWave OS

LigoWave OS contains all of the essential features for establishing fast, strong, and reliable PTMP networks. The LigoWave OS includes IPv6 Bridge & Router Support, SSDP & Bonjour Device Discovery Options, Flexible Traffic Shaping, DHCP Option 82, and more. The user interface is built on HTML5 with responsive design.

iPoll 3: Enhanced Performance Protocol

LigoWave's iPoll™ PTMP (Point-to-Multi-Point) proprietary protocol is an innovative solution, eliminating transmission congestion and close-cluster interference created in wireless PTMP installations.

Hotspot scenario support

Starting from v7.52 Infinity firmware image can be used on a LigoDLB series devices for the outdoor hotspot and other

related applications. After the firmware upgrade DLB devices are converted into access points for outdoor hotspot networks and will lose the functionality of point-to-point or point-to-multipoint connectivity.

Specification:

Wireless

WLAN standard: IEEE 802.11 a/n, iPoll (proprietary)

Radio mode: MIMO 2x2

Radio frequency band: 5.150 - 5.850 GHz (FCC 5.150 - 5.250 and 5.725 - 5.850 GHz)

Transmit power: Up to 29 dBm (country dependent)

Receive sensitivity: Varying between -97 and -75 dBm depending on modulation

Channel size: 5, 10, 20, 40 MHz

Modulation schemes: 802.11 a/n: OFDM (64-QAM, 16-QAM, QPSK, BPSK)

Data rates:

802.11 n: 300, 270, 240, 180, 120, 90, 60, 30 Mbps

802.11 a: 54, 48, 36, 24, 18, 12, 9, 6 Mbps

Error correction: FEC, Selective ARQ

Duplexing scheme: Time division duplex

Antenna

Type: Integrated directional panel antenna

Gain: 15 dBi

Wired

Interface: 10/100 Base-T, RJ45

Software

Wireless operating modes: Access point (auto WDS), access point (iPoll 2), station (WDS, iPoll 2), station (ARP NAT)

Wireless techniques: Smart station polling, smart auto-channel, adaptive auto modulation, automatic transmit power control (ATPC)

Wireless security: WPA/WPA2 personal, WPA/WPA2 enterprise, WACL, user isolation

Wireless QoS: 4 queues prioritization on iPoll 2

Network operating modes: Bridge, router IPv4, router IPv6

Network techniques: Routing with and without NAT, VLAN

WAN protocols: Static IP, DHCP client, PPPoE client

Services: DHCP server, SNMP server, NTP client, router advertisement daemon, ping watchdog

Management: HTTP(S) GUI, SSH, SNMP read, WNMS, Telnet

Tools: Site survey, link test, antenna alignment

Physical

Dimensions: Length 140 mm (5.51 "), width 90 mm (3.54 "), height 35 mm (1.38 ")

Weight: 122 g (4.3 oz)

Power

Power supply: 12 - 24 VDC passive PoE (24 V passive PoE adapter is included in the package)

Power source: 100 – 240 VAC

Power consumption (max): 4.5 W

Environmental

Operating temperature: -40°C (-40 F) ~ +65°C (+149 F)

Humidity: 0 ~ 90 % (non-condensing)

Management

System monitoring: SNMP v1 server, Syslogs, system alerts via e-mail and SNMP trap

Regulatory

Certification: FCC/IC/CE

Internal antenna

Frequency range: 5.1 - 5.9 GHz

Gain: 15 dBi

Polarization: Dual linear

Cross-pol Isolation: 27 dBi

VSWR: <1.4

Azimuth beamwidth (H pol): 35 deg

Azimuth beamwidth (V pol): 35 deg

Elevation beamwidth: 35 deg
